The meet will be entered and scored using eDive. All diving entry details will be submitted in .txt file format by email to [douglas.irey@gmail.com](mailto:douglas.irey@gmail.com) by Tuesday, February 20<sup>th</sup>, 2018 at 5pm.

### **Please use the following instructions to modify the sample diving entries .txt file that is also provided:**

You can use Notepad or any text editor to edit the attached sample dive entry file for your school's entries.

***Please make sure the file is saved as normal text (.txt) and not rich-text (.rtf).*** In order to differentiate between all of the files received, please name the file using your team name. So, if your team is from Johnson High School then name your text file "JohnsonHighSchoolEntries.txt".

- \* **There should be no empty lines at the beginning of the file.**
- \* **Each diver should only be listed once in the file.**
- \* **Each line will be a complete entry record for that diver.** All of one diver's information must be listed on the same line in the following format separated by commas as follows:  
"divername", "teamname", dive1, dive2, dive3, dive4, dive5, dive6, dive7, dive8, dive9, dive10, dive11
- \* **The divers name must be enclosed in double quote marks.** The quotes are not two single quotes ( ' ' ) at the beginning and at the end but rather one double quote ( " ) at the beginning and another double quote at the end.
- \* **The team name must be enclosed in double quote marks.** The quotes are not two single quotes ( ' ' ) at the beginning and at the end but rather one double quote ( " ) at the beginning and another double quote at the end.
- \* **The dive numbers for each round are listed in round order and separated by a single comma.** Dive positions are listed directly after each dive number. So, a 403 pike would be listed as 403B.
- \* **If the dive is a voluntary/required dive then the dive position must be followed by the letter V.** So, a 401 pike voluntary would be listed as 401BV.
- \* **Do not include spaces around the commas separating the information.**
- \* **Capitalization does not matter in the diver's name, team name or dive positions.** But please note that the divers name and team name will be added to the meet database exactly as typed.
- \* **The order that the divers are listed in the text file doesn't matter.**
